## Client Requirements

Checkout should load correctly, card information should be entered successfully, and each row should record the final order outcome.  
Required output fields retained in this report: Order ID, Result, Status, Card Type, Card Last 4, and Notes.

## Desktop and Mobile

This report captures automated checkout execution results. Mobile-specific layout validation is not part of this order-flow run unless separately configured.

## Usability

Checkout readiness, popup interruption handling, and form completion behavior were evaluated during the automated run.
