Issues Found

1. Form 1 - Blank validation for shippingCountry

Severity: High | Priority: P1

Test step: Open the browser, navigate to <https://www.savesspottopmarket.com/kohlertrashcan/?affid=1&state=AL>, locate the relevant form or page element, run the "Form 1 - Blank validation for shippingCountry" validation, capture the observed page state, and compare it with the expected behavior.

Test description: The validation failed or needs attention. Expected behavior: the page should show clear validation, enforce the field rule, or expose the required form element. Actual runner detail: blank value has no visible/native validation

STATUS	CHECK	DETAIL
