Issues Found

1. Form 1 - Blank validation for shippingCountry

Severity: Medium | Priority: P2

Test step:

- Open the browser and navigate to <https://www.savesspottopmarket.com/kohlertrashcan/?affid=1&state=AL>.
- Locate the relevant form or page element.
- Run the "Form 1 - Blank validation for shippingCountry" validation and capture the observed page state.
- Compare the result with the expected behavior.

Test description: The validation failed or needs attention. Expected behavior: the page should show clear validation, enforce the field rule, or expose the required form element. Actual runner detail: blank value has no visible/native validation

STATUS	TEST STEP	TEST DESCRIPTION
